Image Component Library - Feature #106

Replace TestImage Framework by real image files

2012-09-12 12:06 - Christof Elbrechter

Status:	Closed		**Start date:**	2012-09-12
Priority:	Low		**Due date:**	
Assignee:			**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	icl-8.1			

Description

- rename ICLVersion.h.cmake to Version.h.in to reduce redundancy (.cmake prefix is wrong)
- create ICLConfig.h.in in (in ICLUtils)
  that provides a method getInstallPrefix() or something similar
- Replace TestImages by a new class   * this could simply use real (lossless encoded .png) test images from getInstallPrefix()+"/etc/test-images/" rather than
  hardcoded and compiled jpg-images
- propergate these adaptions to the other files (perhaps, we can stick to the current TestImages interface)
- removed very old test-images
- added some other common test images

History

#1 - 2013-02-14 11:12 - Christof Elbrechter

- Priority changed from Normal to Low

- Target version changed from icl-8.0 to icl-8.1

#2 - 2017-11-22 22:15 - Alexander Neumann

- Status changed from New to Closed
