

RML - RobotMetaLogger - Bug #159

Documentation on the screen probe

2013-03-02 14:26 - Florian Lier

Status:	New	Start date:	2013-03-02
Priority:	Normal	Due date:	
Assignee:	Florian Lier	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.01 hour
Description			
This worked for me:			
<pre>{ "rml_cfg": { "environment": {}, "state": { "last_session": 0, "last_run": 0 }, "version": 0.4, "probes": { "screen": { "class": "screen", "location": "foo.avi" } } } }</pre>			
Documentation says: "0.0" for the display. Can you confirm my probe config?
