

# Cognitive Interaction Toolkit - Bug #237

## Omnirob: cca-tools first time build failure

2014-05-09 11:55 - Florian Lier

Status:	Closed	Start date:	2014-05-09
Priority:	High	Due date:	
Assignee:	Arne Nordmann	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	1.11 hour
<b>Description</b>			
-- Building for Processor: x86_64 CMake Error at CMakeLists.txt:20 (find_package): Could not find module FindCCA.cmake or a configuration file for package CCA.  Adjust CMAKE_MODULE_PATH to find FindCCA.cmake or set CCA_DIR to the directory containing a CMake configuration file for CCA. The file will have one of the following names:  CCAConfig.cmake cca-config.cmake  -- CCA version: -- Found sloccount: /usr/bin/slocount

```

I really dont get where /vol/isy is coming from ...

**#2 - 2014-05-09 13:39 - Johannes Wienke**

Somehow the isy volume leaks into this. This usually happens from the PATH variable. Are you sure the environment you showed is the one that was active during build?

**#3 - 2014-05-09 13:43 - Florian Lier**

...absolutely I checked env and export and then started the Jenkins in the same bash

**#4 - 2014-05-09 13:48 - Johannes Wienke**

There must be a reason why cmake picked up that weird location. It will never have guessed this without reason ;)

**#5 - 2014-05-09 13:49 - Florian Lier**

<http://thorium:8080/job/cca-tools-master-toolkit-omnirob-nightly>

**#6 - 2014-05-09 13:59 - Johannes Wienke**

Thanks for the permissions ;)

You have /homes/flier/.cmake/packages and there is the old RSt version exported. Just delete the RST folder there.

**#7 - 2014-05-09 14:01 - Florian Lier**

... would someone except for "you" (Johannes, Arne, Jan, Sebastian) know that?

**#8 - 2014-05-09 14:12 - Jan Moringen**

Johannes: Is this caused by the \*BuildTreeSettings.cmake files that we configure and install in some of our projects? If so, maybe we should think about stopping to use this mechanism because 1) it seems to do more harm than good 2) nobody understands how it works

**#9 - 2014-05-09 14:13 - Florian Lier**

Jan for president. +1

**#10 - 2014-05-09 14:19 - Johannes Wienke**

That mechanism is stopped since ages. Florian has got this from an ancient version of RST.

**#11 - 2014-05-09 14:21 - Florian Lier**

The doom of early adopters. I will close this, since it has been resolved by deleting the .cmake folder. Thanks again.

**#12 - 2014-05-09 14:21 - Florian Lier**
