<b>Description</b>			
Jan, would you be so kind and add the necessary projects to the oncilla sim distribution? I need to bag-play stuff. I had no luck earlier, builds failed due to cl related problems that I could not interpret with my limited cl knowlegde.

I suggest using the binary download variants of the tools:

```
[ "rsb-tools-cl-binary", "master" ],  
[ "rsbag-tools-cl-binary", "master" ],
```

as a from-source build is not trivial, unfortunately.

not trivial *yet*, that is.
