

## Cognitive Interaction Toolkit - Feature #344

### Generator template that is not included in the build flow

2014-11-24 14:14 - Florian Lier

<b>Status:</b>	Closed	<b>Start date:</b>	2014-11-24

<b>Target version:</b>		<b>Spent time:</b>	0.00 hour
<b>Description</b>			
In order to automate experiment execution (via FSMT for instance) I would like to have a job template that allows to execute experiments on the CI Server.			
The template can be pretty much copied from the "freestyle" template but it must not be included in the build flow.			

#### Associated revisions

##### Revision 3e408be5 - 2014-12-01 17:17 - Jan Moringen

Improved builder ordering in templates/{toolkit,maven}.template

refs #333, refs #307, refs #344

- templates/T001-toolkit.template: pre-build-hook before <all> and before git
- templates/T200-maven.template: maven.prepare-version before maven; maven.deploy-dependencies after maven

- Status changed from New to Closed

Generation of orchestration jobs is now controlled from the commandline and via distribution variables.
