Finite State Machine Based Testing - Bug #382

websocket connection is blocked in yet unknown host configuration

2015-02-24 13:38 - Florian Lier

Status:	Closed		**Start date:**	2015-02-24
Priority:	Urgent		**Due date:**	
Assignee:	Florian Lier		**% Done:**	0%
Category:			**Estimated time:**	0.00 hour
Target version:	0.17		**Spent time:**	0.00 hour
Description				

In a yet unknown host configuration the websocket connection cannot be established. Therefore, this feature has been disabled in 0.17 and the master version since it completely prohibits FSMT execution
