IPAACA - Feature #435

Feature # 466 (New): IPAACA v3

Feature # 463 (New): v3: Expose more event data

Expose whether an ADDED event is caused through resending

2015-11-26 13:26 - Hendrik Buschmeier

Status:	New	**Start date:**	2015-11-26
Priority:	Normal	**Due date:**

Category:		**Estimated time:**	0.00 hour
Target version:			
Description			
Currently it is impossible for the IU event handler to know whether an ADDED event is due to resending or a genuin ADD event. The IU handler interface should expose this information to the programmer.
