IPAACA - Feature #469

Feature # 466 (New): IPAACA v3

v3: Thread-safe iterators

2016-02-18 14:06 - Ramin Yaghoubzadeh

Status:NewStart date:2016-02-18Priority:NormalDue date:Assignee:% Done:0%Category:Estimated time:0.00 hourTarget version:One:One:

Description

Iterating over a Payload object (any extended access in fact) may fail due to the Payload being updated remotely. There should be a mechanism to perform such extended access / iterations in a thread-safe manner, instead of the necessity to clone the Payload into a dict.
