

IPAACA - Task #472

Should basic logging (level >= WARNING) be enabled by default?

<b>Description</b>			
Currently logging is disabled by default and needs to be enabled via <code>`ipaaca.misc.enable_logging()`</code> . This however results (e.g.) in exceptions occurring in <code>iu_handlers</code> being hidden from the user.			
A better default behaviour would therefore be to have a log level ( <code>&gt;= WARNING</code> ) enabled by default.
