<b>Description</b>			
I am using flobi, and we get this error now :			
2018-08-15 10:39:20,004 hlrc_client.Middleware ERROR > publish_lookat_target timed out waiting for result or soemthing else went wrong			
and in the log of hlrc_server :			
[ WARN] [1534322517.517683315]: "floka_BASE_LINK" passed to lookupTransform argument target_frame does not exist			
I tracked down the error to a recent change with a hardcoded prefix.

Maybe the prefix could be taken from the scope name (unless you want to make that cleaner) that is passed to the arguments anyway
